

# Harrison County General Health District

## Environmental Department Septic Packet HCGHD # 204.012

**This Packet is Comprised of the Following HCGHD Forms:**

- Instructions for New or Replacement HSTS on Existing Lots 204.013
- Soils Professionals Certified to work in Ohio 204.015
- Soil Evaluators Approved Under Ohio Administrative Code 204.016
- HSTS Designer List for the State of Ohio 204.017
- 2019 Harrison County Septic Installers 204.014
- Application for Permit to Install or Modify a HSTS 204.009
- Application for a Renewable Operating Permit for a HSTS 204.003

**Compiled; November 2019**

---

**Steps for obtaining approval to install a  
NEW or REPLACEMENT  
Home Sewage Treatment System on EXISTING LOTS**

1. A complete soil and site evaluation must be conducted by a soil scientist or qualified individual. The evaluator must provide the homeowner an accurate written evaluation that complies with the sewage rules. Soil evaluation may be waived on replacement systems that have very limited space for a system and must install a discharging system.
2. A design for the proposed sewage system must be prepared by a qualified individual. The design must use the soil evaluation from step 1 and comply with the sewage rules.
3. The site Review application form must be accurately filled out and be submitted with the soil and site evaluation, the design plan, a copy of the house floor plan, a copy of the current plat map, and the application fee.
4. The health department sanitarian will review the submitted material to ensure compliance with the sewage rules. The sanitarian will notify you of plan approval or appropriate changes that are needed.
5. The Harrison County Health Department will contact applicant once Site Review and Design have been approved. A meeting will be scheduled to review HSTS with applicant and complete and application to obtain an installation, replacement, or alteration permit.
6. Only a contractor/individual who has passed the sewage Installer's exam and is registered with the health department can install the sewage system.
7. The health department sanitarians will conduct the necessary inspections of the sewage system during installation and will provide you with a final inspection report along with an operational permit when the installation is complete. The sewage installer will provide you an as-built drawing of the system.
8. The office conducts a 12-month follow-up inspection after the sewage system is installed and given final approval. Operating Permit application will be sent to owner when existing Operating Permit expires.

## Application for Permit to Install or Modify a Home Sewage Treatment System

**All Septic Systems Require an Operational Permit for the Life of the System**

New System       Alteration       Replacement

Permit # \_\_\_\_\_ Fee Cost \$ \_\_\_\_\_ RS / SIT \_\_\_\_\_ Date: \_\_\_\_\_

application is hereby made by: \_\_\_\_\_ for a permit to install/ replace and operate a residential home sewage treatment system on the property owned by: \_\_\_\_\_, located: in \_\_\_\_\_ township.

House Number	Road Name	Post Office	State	Zip	Parcel #	(Required)
(Applicant's current mailing address)						
House Number	Road Name	Post Office	State	Zip	Telephone	

The applicant's choice of contractors is: \_\_\_\_\_

This system was designed for a \_\_\_\_\_ bedroom home with a peak daily flow of \_\_\_\_\_ g/d/b, and is expected to serve no more than \_\_\_\_\_ permanent residents. Any modifications to the structure and or water usage may require modifications to ensure proper operation.

- The system shall include \_\_\_ double compartment watertight septic tank(s) that will hold at least \_\_\_\_\_ gallons.     Lift Tank \_\_\_\_\_ gallons.
- An aeration tank rated to treat at least \_\_\_\_\_ gallons per day.       Holding/Storage Tank for \_\_\_\_\_ gallons (variance required).
- Distribution Valve     Outflow Filter     High Level Alarm     Other (i.e. NPDES, alternative treatment)\_\_\_\_\_
- Leach Field (Specifications):\_\_\_\_\_       Distribution Box

*(Leach field components shall be of an approved material for use in the State of Ohio by the Ohio Department of Health. All ditch depths and widths shall comply with as specified. Space for a replacement leaching device must be available after the original field is installed. Required distances for the leach field shall be: no run exceeding 150 feet; in length at least six feet between individual lines; at least eight feet from any drain line, at least fifty feet from any private water source (well, spring, etc.); and, at least ten feet from lot lines or right-of-ways.*

- \_\_\_\_\_ mound system constructed as required by the Harrison County General Health District and Sanitary Code.
- Other as specified below.

**Additional Requirements of Comments:**

Fees:	
Site Review/Survey	\$ 75.00
Soil Eval. & Septic Design	\$ N/A
Permit to Install	\$ 235.00
2018-Operation Permit	\$ 50.00
State Fee	\$ 74.00
<b>Total</b>	<b>\$ 434.00</b>

I the undersigned, agree to install, construct, alter, and/or operate the above specified private sewerage disposal system in accordance with all County and State Sanitary Regulations. The system shall be inspected by a Health Department representative after installation and prior to covering. A two-business day notice is required to schedule the inspection. An attempt will be made by the Health Department to expedite the inspection if conditions require. This application expires one year from the issuance date unless changes in the law void the application prior to the expiration date of the application. The Harrison County General Health District makes no warrantee that the system as prescribed will operate properly under any or all conditions.

## Application for a Renewable Operating Permit for a Household Sewage Treatment System (HSTS)

**FEE: \$50.00**

I, the undersigned, herewith make application for a renewable operating permit for the HSTS I presently have installed at this address in Harrison County, Ohio according to the Ohio Administrative Code, Chapter 3701-29 inclusive (Sewage Treatment Rules) effective January 1, 2015, and Resolution #2012-9, Effective September 1, 2012. Payment is due within 15 business days of \_\_\_\_\_ (date sent), or a 25% (\$16.25) late fee will be added to the permit fee.

<b>Name of Owner or Operator</b>	
<b>Street Address</b>	
<b>City, State, and Zip</b>	
<b>Business Phone</b>	<b>Home Phone</b>

I further state that I have read Appendix I on the back of this application and agree to its provisions by signing and applying for application of the renewable operating permit. I hereby certify that the information contained in the foregoing application is true and correct to the best of my knowledge. The duration of the operating permit will vary with the type of system installed and the record of maintenance commitment performed by the owner/operator.

## APPENDIX 1

Failure to pay household sewage disposal system permit or inspection fee shall be enforced under section 3709.091 of Ohio's revised code which states:

(B) If any owner, leaseholder, or assignee of real property fails to pay a fee as required by rule of a board of health of a city or general health district pursuant to section 3709.09 of the Revised Code for an operation permit for, or for inspection of, a household sewage treatment system or a small flow on-site sewage treatment system located on the real property, the health commissioner of the city or general health district or the commissioner's designated representative shall notify the owner, leaseholder, or assignee of the real property of the amount of the fee and any accrued penalties for late payment of the fee. The notice shall state, in boldface letters: **"You have 30 days to object to the amount of the unpaid operation permit or inspection fee for your household sewage treatment system or small flow on-site sewage treatment system, as applicable, as designated in this notice, which may include accrued penalties for late payment of the fee. If you do not pay this amount as instructed herein within 30 days of receipt of this notice or object to this amount during that time period in accordance with the procedures set forth herein, the amount will be placed as a lien on your real property."** The notice also shall explain how the owner, leaseholder, or assignee may pay the amount, or object to the amount in accordance with the procedures established by divisions (C) and (D) of this section.

Notice to the owner, leaseholder, or assignee shall be made by either of the following:

(1) Certified mail, overnight delivery service, hand delivery, or any other method that includes written evidence of receipt;

(2) The sheriff of the county in which the owner, leaseholder, or assignee to be served resides, in one or more of the methods provided in the Ohio Rules of Civil Procedure. The sheriff may charge reasonable fees for that service.

(C) Not later than thirty days after receipt under division (B) of this section of notification of the amount of an unpaid operation permit or inspection fee and any accrued late payment penalties, the owner, leaseholder, or assignee may object to the amount by delivering a written notice of objection to the health commissioner by any of the means provided for in division (B)(1) of this section. Not later than sixty days after receipt of the notice of objection, the county prosecutor, on behalf of the city or general health district, may file a civil action in the court of common pleas against the owner, leaseholder, or assignee. If the county prosecutor fails to commence suit within the sixty-day period, or if the action is commenced, but dismissed with prejudice before adjudication, the unpaid fee and any accrued late payment penalties are void and cannot be placed on the general tax list and duplicate as a lien against the real property.

(D) If, in accordance with division (C) of this section, the owner, leaseholder, or assignee objects to the amount of the unpaid operation permit or inspection fee and any accrued late payment penalties and the county prosecutor commences suit and prevails in the action, the owner, leaseholder, or assignee objecting shall pay the amount of the fee, any accrued late payment penalties, and the costs of the action, as determined by the court.

(E) If the owner, leaseholder, or assignee on which the notice required by division (B) of this section was served does not pay to the city or general health district the amount of an unpaid operation permit or inspection fee and any accrued late payment penalties within thirty days after receipt of the notice, or does not object to the amount in the manner provided in division (C) of this section, the health commissioner of the city or general health district or the commissioner's designated representative may certify, on or before the first Monday of September, the amount of the unpaid fee and any accrued late payment penalties to the county auditor to be placed on the general tax list and duplicate as provided in section 319.281 of the Revised Code.
